

## MEMBER SURVEY

This survey has been developed to help the officers and directors more efficiently plan and manage projects and events of the Club. PARTICIPATION IN THE SURVEY IS COMPLETELY VOLUNTARY.

The reason that this survey was established is because many people support the mission, ideals, goals, and objectives of the Club, but, for various reasons, are unable to actively participate in projects and events on a regular basis. There are, however, many members who have indicated they can and will help out on a limited basis, when time permits.

By completing this survey, you can help us identify, and organize this valuable resource pool. It will enable us to contact those who can help without bothering those who can't.
